Mr. Weisberg,

There has been very little in either St. Louis paper about the House investigation. What there's been I've sent with this note.

I also responded to an editorial that appeared in the Globe Democrat. I have included both the editorial and my reply for you to look at. I would appreciate any comments or corrections you might like to make about either. I wasn't sure about the threat of a lawsuit on the release of the Zapruder film, but was relying on a statement made by Penn Jones in Forgive My Grief about such action being taken. If I am wrong my apologies.

I have contacted Professor Wrone about the seminar material and am awaiting his reply. Thank-you for making known its existence.

I just finished Post Mortem- excellent. Please let me know if I can ever be of assistance to you. I will be more than glad to oblige.

Sincerely,

Tom Richard

Please return the clippings if possible for they are my only copies. Thank you.
